

**New!
Version 4.0**

Organizing Your Family Information is Easier Than Ever

- Print both ancestors and descendants in one comprehensive tree
- Automatically fit trees on fewer pages with new Auto-Fit feature
- Quickly locate errors in your data with new Data Errors Report

...and much more!

Family Tree *maker*

Family Tree maker

"...everything you could ask for...easy input, easy editing, gorgeous output, and a modest price."

—PC Magazine, May 15, 1990

#1 SELLING AND BEST VALUE

With over 200,000 copies sold, Family Tree Maker™ is the #1 selling program to organize your family information. When it comes to ease of use, overall quality, and reliability, you won't find a better value than Family Tree Maker.

QUICK AND EASY

It's just like filling out a note card. Simply enter information about parents, children, and marriages into the family card screen. Links between family members are automatically created and maintained.

ORGANIZE YOUR FAMILY INFORMATION

Extend your family research to include education, military service, occupation — even personal characteristics like height, weight, and personality. Family Tree Maker lets you record any facts you choose. Then **print your choice of information** in your family trees. Other programs let you record facts like these, but then don't let you print them!

With the **Notes** feature, record extensive biographies and amusing stories — up to 5 printed pages per person. Family Tree Maker also provides a fun, **Kinship** command that tells you how one individual is related to any other.

Your family trees are rewarding and enlightening no matter what information you include. And what a great way to pass your findings on to future generations!

AUTOMATICALLY DRAWS, READY FOR FRAMING

Family Tree Maker automatically draws your family tree. It places each individual in a box, and precisely draws lines between the boxes to show your family relationships. The results are beautiful.

FAMILY TREES ARE GREAT GIFTS

Ancestor trees (also known as pedigree charts) make especially good gifts because they show the roots of a particular person. Their parents, grandparents, great-grandparents, and beyond are all printed with perfect spacing.

Descendant trees are ideal for family gatherings because they show where everyone fits. Starting with a relative in the distant past, a descendant tree shows the children, grandchildren, and so on, generation by generation. Aunts, uncles, and cousins are all included.

ENTER INFORMATION ONCE...PRINT MANY DIFFERENT WAYS

Family Tree Maker has more ways to print your family tree than any other program:

- Print **Ancestor (pedigree) and Descendant Trees** in a variety of different styles: regular, direct, photo, and **New Outline Style**.
- More **box and border styles** for your tree than any other program.
- Create **Custom Reports and Lists** with your family information.
- Remember special family occasions with **Calendars**, automatically printed with birthdays and anniversaries filled in.
- Summarize information to aid in your family research with **Family Group Sheets** or **Individual Cards**.
- Batch printing** and **Index feature** are helpful when preparing family books.
- Record up to 2,400 relatives in a single tree. **No limit to the number of different trees** you can create. **GEDCOM and ASCII data transfer** now included, free!

RECOMMENDED BY EXPERTS...PRAISED BY USERS LIKE YOURSELF!

"Of all the software packages on this subject, this is the easiest and best operating family history program."

—Maggie Ramirez, Sr. Reviewer, Rainbo Electronic Reviews, 1992

"For a quick genealogy payoff, you won't find anything better than Family Tree Maker...Entering information is fast and painless...You won't find any [trees] that are more attractive."

—Gregg Keizer, Compute, June 1991

"One of the easiest to use genealogy programs available. This manual is one of the best in the business; well organized, thorough, clear, and fully indexed."

—JP O'Connor, Genealogical Computing, 1990

"It is fantastic! There is now hope for everyone who didn't want to spend a month learning to use a genealogical program."

—Betty Morrison, Bloomfield, Ohio
